

Reminder: It's time to review your ITP choice!

To ensure that all private sector employees receive the highest possible pension, we procure new insurance products every five years. We do this on behalf of the Confederation of Swedish Enterprise and PTK.

We are contacting you because you have placed your ITP 1 or ITPK premiums in a product that has not been procured on this occasion and you need to confirm your previous choice or make a new choice.

What to do

- Log in to My pages (“Mina sidor) on collectum.se to see your information. This is also where you can update your choice **up to 30 September 2023**.
- Your choice will apply to all future premium payments. The money you've already earned will remain invested in the insurance product you previously chose – unless you transfer the money to another product.
- On collectum.se/en/review-itp-choice you will find more information.

What if I don't do anything?

If you don't make a choice, your premiums will be invested in the selected and quality-assured default option with a low fee. This is a traditional insurance policy with Alecta, which is also one of the procured options you can choose. The money you've already earned will remain invested in the insurance product you previously chose until you retire, unless you choose to transfer the money yourself.

Any questions?

If you have any questions about the choices, please feel free to contact us.
